

Monica R

React Front-End Developer | JavaScript | Material UI | REST APIs

React Front-End Developer with 4 years of experience in designing, developing, and maintaining enterprise web applications using React.js, JavaScript, HTML5, CSS3, and REST APIs. Experienced in building responsive user interfaces, integrating backend services, developing reusable components, and optimizing application performance. Strong expertise in Material UI, API integration, state management, and modern frontend development practices. Adept at collaborating with cross-functional teams to deliver scalable and user-friendly solutions.

Work Experience

Delta Sigma Ventures

Frontend Software Engineer

Mar 2024 - Present

- Developed and maintained enterprise React applications for document management and business operations.
- Built reusable React components using Material UI to improve consistency and maintainability across applications.
- Integrated REST APIs for file management, search, filtering, sharing, and access-control workflows.
- Developed responsive user interfaces supporting desktop and mobile devices.
- Implemented dynamic dashboards, data tables, filters, and workflow-based UI modules.
- Collaborated with backend teams to integrate business requirements and new features.
- Optimized application performance by restructuring heavy UI components and reducing unnecessary re-renders.
- Performed code reviews, debugging, and issue resolution to improve application stability and user experience.

Softlets

Full Stack Developer

Mar 2023 - Oct 2023

- Built responsive frontend modules for booking and billing systems.
- Maintained modular CSS styling and ensured layout consistency across devices.
- Implemented structured navigation and dynamic UI updates using React.
- Generated PDF and Excel reports while maintaining clean UI rendering logic.

Cross Hurdles

Full Stack Developer

Oct 2021 - Mar 2023

- Developed React-based interfaces for account management and workflow systems.
- Ensured proper semantic structure and CSS best practices across modules.
- Debugged styling conflicts and improved layout alignment.
- Integrated REST APIs for real-time data updates.

Projects

- Developed modules for document upload, folder management, search, filtering, permissions, sharing, and access control.
- Built interactive tree-view navigation and responsive data tables.
- Implemented file and folder upload workflows with duplicate-file handling.
- Integrated APIs for permissions, sharing, recycle bin, and document management operations.
- Improved usability and performance through optimized React component architecture.
- Business Operations Dashboard
- Developed dashboard interfaces with charts, filters, reporting, and workflow management features.
- Built responsive UI components and integrated backend APIs for real-time data visualization.
- Enhanced user experience through performance optimization and improved frontend architecture.

Skills

Frontend

- React.js
- JavaScript (ES6+)
- HTML5
- CSS3
- JSX

React Ecosystem

- React Router
- Context API
- Redux

UI Development

- Material UI (MUI)
- Responsive Design
- Flexbox
- CSS Grid
- Cross-Browser Compatibility

Backend Integration

- REST APIs
- Axios
- Fetch API
- JSON

Tools & Practices

- Git
- Debugging
- Code Review
- Performance Optimization
- Agile Development

Educational Background

M.Sc. Cyber Forensic and Information Security

Madras University

- 2024

B.Sc. Information Technology and Management

Lady Doak College

- 2021
